 D. The test must finish carefully by yourself.

Read the text carefully, then blacken the letter A, B, C or D in 'ANSWER YOUR PART I HERE' to indicate the correct answer to each of the questions from 21 to 24.

UFOs are unidentified flying objects that are sometimes reported to be seen in the sky and they are believed to be spacecrafts from a certain planet. However, many scientists do not think so. They said that if someone sees a UFO, it might be an aircraft, a weather balloon or a meteor. There is still evidence for people to believe in the existence of UFOs.

In 1947, Kenneth Arnold, an experienced pilot in the USA, reported that he saw nine large round objects travelling at about 2,800 meters an hour to the left and north of Mount Rainier.

In 1954, a woman and her children believed they saw a UFO above their house. The woman said they saw two aliens in the aircraft.

Ten years later, a farmer claimed that he saw an egg-shaped object in his field and also aliens collecting soil samples.

In 1971, two men claimed they were captured by aliens and taken abroad a spacecraft. After being examined by the aliens, the men were freed.

In 1981, Renato Nicolai, who lived in the South East of France, reported that he saw a plane-like device at a treetop 30 metres away from his garden.

Question 21: UFO is shortened from -----.

- A. strange flying object B. unidentified flying object
 C. a strange object that can fly D. flying objects that is unidentified.

Question 22: Many scientists do not believe that a UFO is -----

- A. A weather balloon B. a piece of rock from space
 B. C. an aircraft from another planet D. a plane or a helicopter

Question 23: The shapes of all UFOs are -----.

- A. the same B. egg-shaped
 C. plane-like D. various

Question 24: Aliens from a UFO were seen to collect soil samples in -----.

- A. 1947 B. 1954
 C. 1964 D. 1971
