You want to lose weight and are searching for online advice. Read the following website carefully and mark the letter A, B, C, or D on the answer sheet to indicate the correct answer to each of the questions from 31 to 40.

INSPIRE

LOSING WEIGHT ONLINE

How it works

Losing weight with the *Inspire* system is easier than you could ever imagine. [A] For a monthly fee, you get access to our library of articles and recipes, our chat room, and our wonderful online apps to help you count calories, keep track of the amount of water you drink, and a lot more. At only \$9.95 per month, our price is very competitive. And for an additional \$24.95 onetime payment, you become a gold member, which means you have unlimited access to a trained counselor. Your online counselor will be there to motivate you, give you a pat on the back when you do well, and of course, gently reprimand you if necessary.

Inspire not only offers individualized assistance, but also gives you personal space. We want to be there for you in this difficult voyage towards shaping the new you, and we will help you become independent and take charge of your life.

What you can eat on the Inspire Diet

Our philosophy at *Inspire* is that you live in the real world and must eat real food. [B] There are no special foods you are required to buy or cook, but you must reduce your calorie, carbohydrate and fat intake. Beyond that, you can eat all of your favorite foods, but you mustn't overdo it. [C] Our 'tracker app' will help you out with this: when you eat something and record it, it will tell you how many calories you have consumed, and how many you have left for the rest of the day. That's the magic of the system – it takes all the guesswork out of counting calories so you can relax and eat what you want, when you want; within measure, of course.

Fill in our free online survey

Still not convinced? Take five minutes out of your stressful schedule to answer a few questions. Our online survey will help you identify the everyday habits you need to change, and estimate how long it will take you to reach your target weight. [D]

Comments

linda347: It's only been 2 weeks and I can already see a difference. I've tried dozens of diets, and this is the first one I've stuck to. But I strongly suggest being a gold member. What makes this system stand out is the personal care you get: I need to feel that someone is looking over my shoulder, making sure I'm sticking to the diet. But I also need someone to **hold my hand** and pick me up when I'm feeling down – and this is what I've found here.

dave22: Not exactly for me. I understand the philosophy behind taking charge of your life, but I need more individual help than what *Inspire* offers. I'm going to try one of those diets which don't allow you to eat tasty food. I think I lack the discipline to do it all alone, and besides, when I missed a day, which is only human, I lost track of everything and had to start again.

- 31: What is the main advantage of being a gold member?

- A. You save money in the long run.
- B. You can use the online apps as much as you want.
- C. You will get support from an expert.
- D. You will lose weight faster than other members.

- 32: According to the website, the Inspire system
 A. helps and encourages you to take control.
 B. guarantees that you will lose weight quickly.
 C. is the cheapest way to lose weight.
 D. provides visits to your home by professional counsellors.
- 33: What can you eat while on the Inspire diet?
 A. mostly proteins and vitamins
 B. all foods but in limited quantities
 C. foods that are sold on the company's website
 D. as many sweets as you want
- 34: Which of the following is closest in meaning to 'it takes all the guesswork out of counting calories' in paragraph 3?
 A. It creates a diet based on counting calories.
 B. It makes it easy to count calories.
 C. It predicts how many calories you will consume.
 D. It convinces you that counting calories is important.
- 35: What are you required to do while on the Inspire diet?
 A. use the 'tracker app' to report what you have eaten
 B. communicate regularly with your counsellor
 C. try to control your appetite
 D. ignore the number of calories you consume
- 36: How can the survey help you?
 A. It will tell you if the Inspire diet is appropriate for you.
 B. It will help you plan your work schedule.
 C. It lets you know what you will eat on the Inspire diet.
 D. It will point out what you are doing wrong on a daily basis.
- 37: What does *linda347* say about dieting?
 A. She has not had much success with it in the past.
 B. She does not need to lose a lot of weight.
 C. The more expensive diets are usually more effective.
 D. She has very little experience of diets.
- 38: Which of the following is closest in meaning to 'hold my hand' – in *linda347*'s comment?
 A. influence me
 B. train me
 C. support me
 D. control me
- 39: What is *dave22*'s opinion of the Inspire diet?
 A. It isn't personal enough.
 B. The food isn't tasty.
 C. It suits his character.
 D. It is well organized.
- 40: At which point in the website would the following sentence best fit?
 "This can give you extra motivation to stick to the diet as you can see the light at the end of the tunnel."
 A. [A]
 B. [B]
 C. [C]
 D. [D]

Eco Carpet and Rug Cleaners Why "Green" Carpet Cleaning?

CARPET & RUG CLEANING SERVICE

Because it's better for the environment, your family, your pets, and your carpet!

Most carpet cleaning companies use harsh chemicals that are dangerous for children, pets, and people with allergies. At Eco Carpet and Rug, we use only organic treatments. Our non-toxic treatments dry within two hours, so there's no chance for harmful mold or mildew, which could cause respiratory problems, to grow.

We are so confident that you'll love our service that we're offering every customer a 100% satisfaction guarantee – in writing! If you're not satisfied with our service, you pay nothing!

When steam cleaning your carpet, don't bother using shampoos or detergents; just use plain hot water. Hot water cleans your carpet, even without detergent.

For stubborn dirt, add a cup of white vinegar to 2 1/2 gallons of hot water. (Add more vinegar for an even stronger solution.) This is a great way to remove shampoo residue and other chemicals from earlier cleanings.

To prevent the growth of mold and mildew, common causes of allergic reactions, keep your house well-ventilated, both during and after steam-cleaning your carpets. Avoid steam-cleaning when you can't open windows, such as in the winter, or on damp or humid days.

B

Dear Tom,

Thanks for agreeing to make the arrangements for our carpets to be cleaned. As you noted, the previous tenants should have taken care of this before moving out. But we're glad that you're going to book the cleaners for us. There's just one thing, though. Our son is only 18 months old, and he spends a lot of time on the floor, playing, rolling around, and so on. Because he'll have so much direct physical contact with the carpet, we're concerned about the chemicals used in carpet cleaners. We've heard that there are companies specializing in so-called green carpet cleaning – meaning that they use only environmentally-safe cleaning products. We'd prefer to have our carpets cleaned by such a company, and wonder if this is something you could arrange.

Yours,

Dan McNichols
Tenant, Apt. 2B

D

Danger Underfoot

It's a fact: All carpets eventually need cleaning. And like many other kinds of cleaners, carpet cleaners may contain toxic chemicals – some of which might not even be listed as ingredients on the label because they are considered "trade secrets."

Liquid carpet shampoos can leave a sticky coating on carpets. It can be hard to see or feel, though you may be able to smell it. This toxic film not only attracts and holds dirt, but children who play on carpets can inhale it or and get it on their hands, which often go into their mouths.

Dry cleaners, such as powders, are applied to the carpet and vacuumed up after a specific period of time. These products contain powerful chemicals called solvents, which may also leave toxic traces behind, especially if your vacuum cleaner is not particularly powerful, or if the carpet is deep. The resulting residue can be easily inhaled, and can irritate your eyes or skin.

Steam cleaning, or any kind of wet cleaning, can dampen the carpet and the pad beneath it, creating ideal conditions for mold and mildew. Adequate ventilation is critical to ensure that wet carpet dries as quickly as possible. In addition to destroying carpet, mold and mildew can cause serious breathing-related health problems.

Questions 44-45 refer to section C on page 5.

- 44: What does 'this' in the third sentence of the second paragraph refer to?
 A. stubborn dirt B. a cleaning solution C. the carpet D. shampoo residue
- 45: What does the author recommend when cleaning carpets?
 A. avoiding steam cleaning B. using detergent
 C. keeping windows open D. adding shampoo to hot water

Questions 46-48 refer to section D on page 5.
